

2021 MUG - SEPTEMBER MEETING COVID-19 DATA

OHIO DEPARTMENT OF
TRANSPORTATION

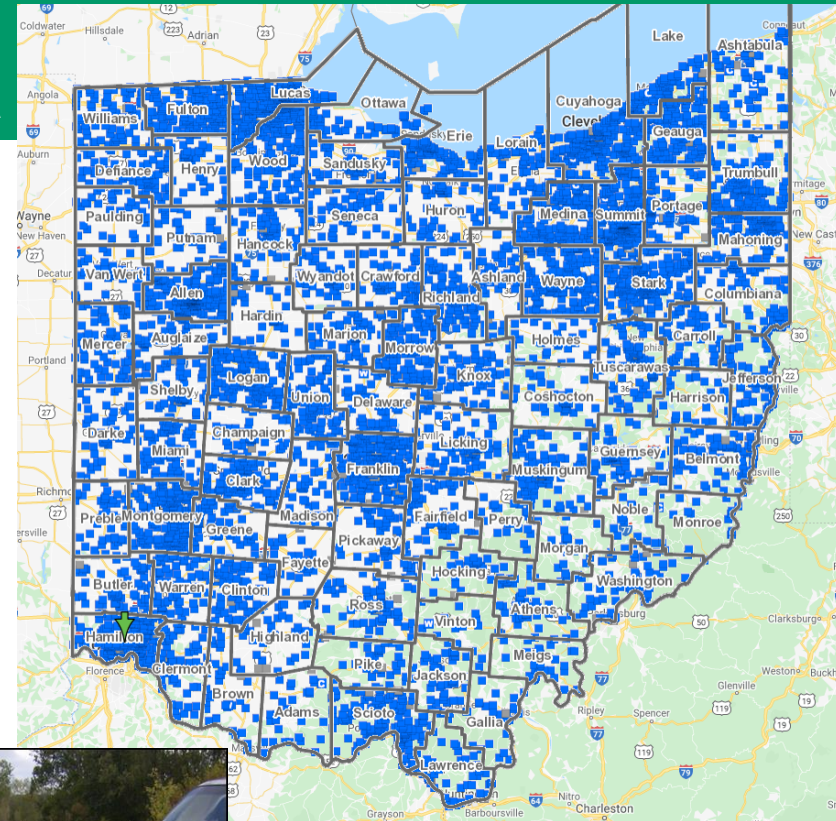

ODOT PERMANENT COUNT PROGRAM

- Around 250 stations - variety of types - count 24 x 7, 365 days per year
- Used as baseline data for adjusting all other counts. Based on double magic black box (best practices and federal guidelines)
- Growing our coverage by accessing existing infrastructure from other areas within ODOT - ramp metering, ITS, signals, cameras, etc.

ODOT SHORT TERM COUNT PROGRAM

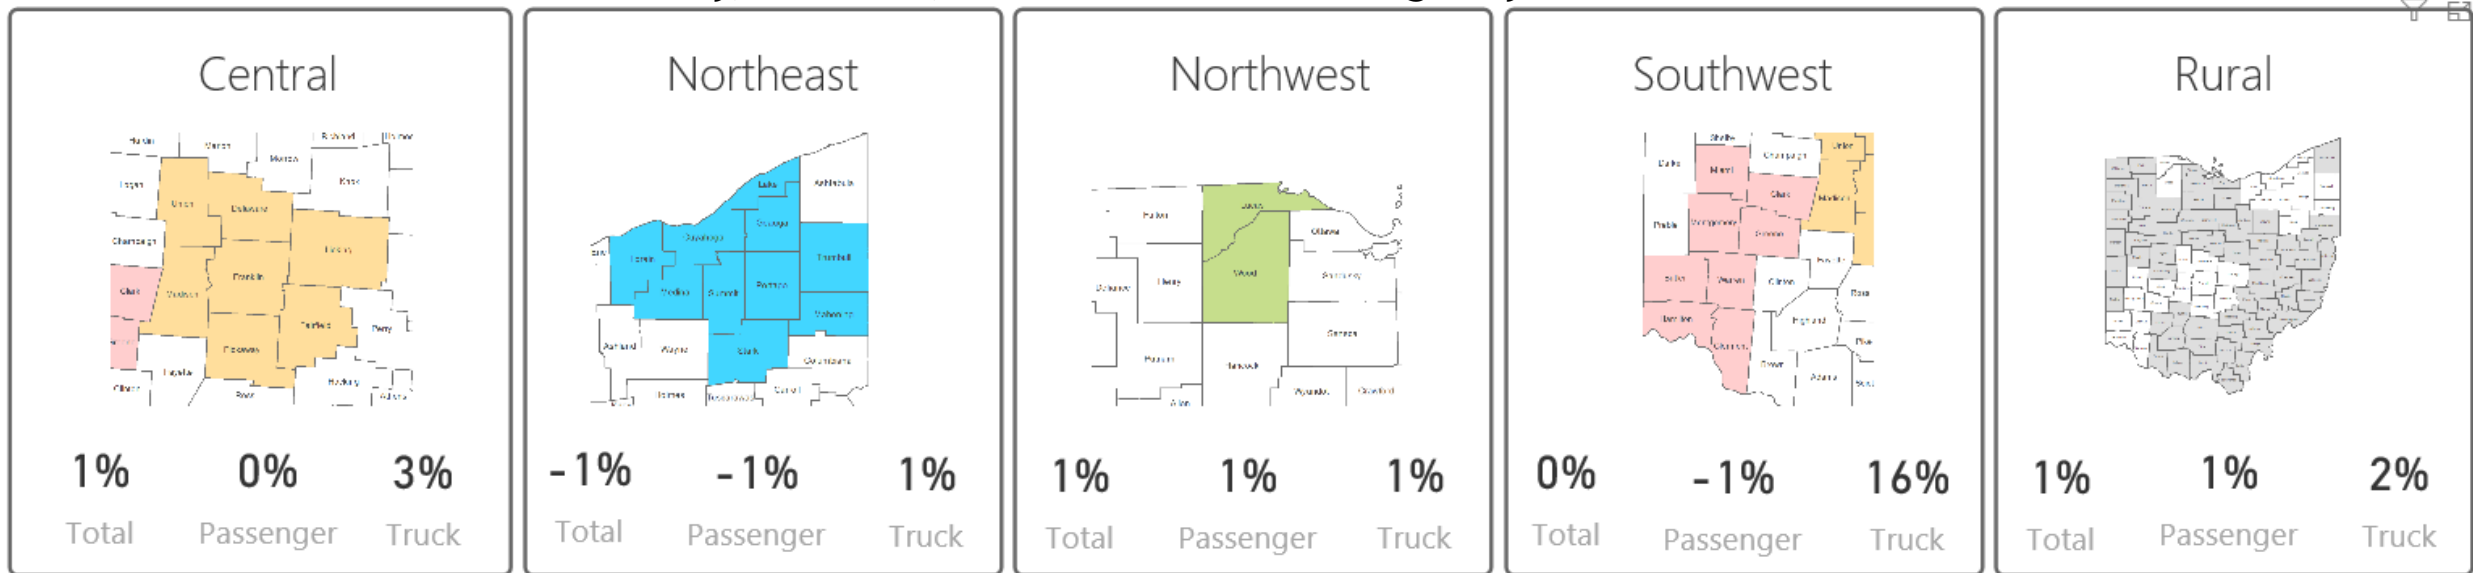

- Program & Special Request
- Nearly 50,000 locations in our system
- Count 1/3 counties each year - old style tubes, camera, radar
- 3-yr. and 6-yr rotating basis, about 7000 - 10,000/year

Model Counts?

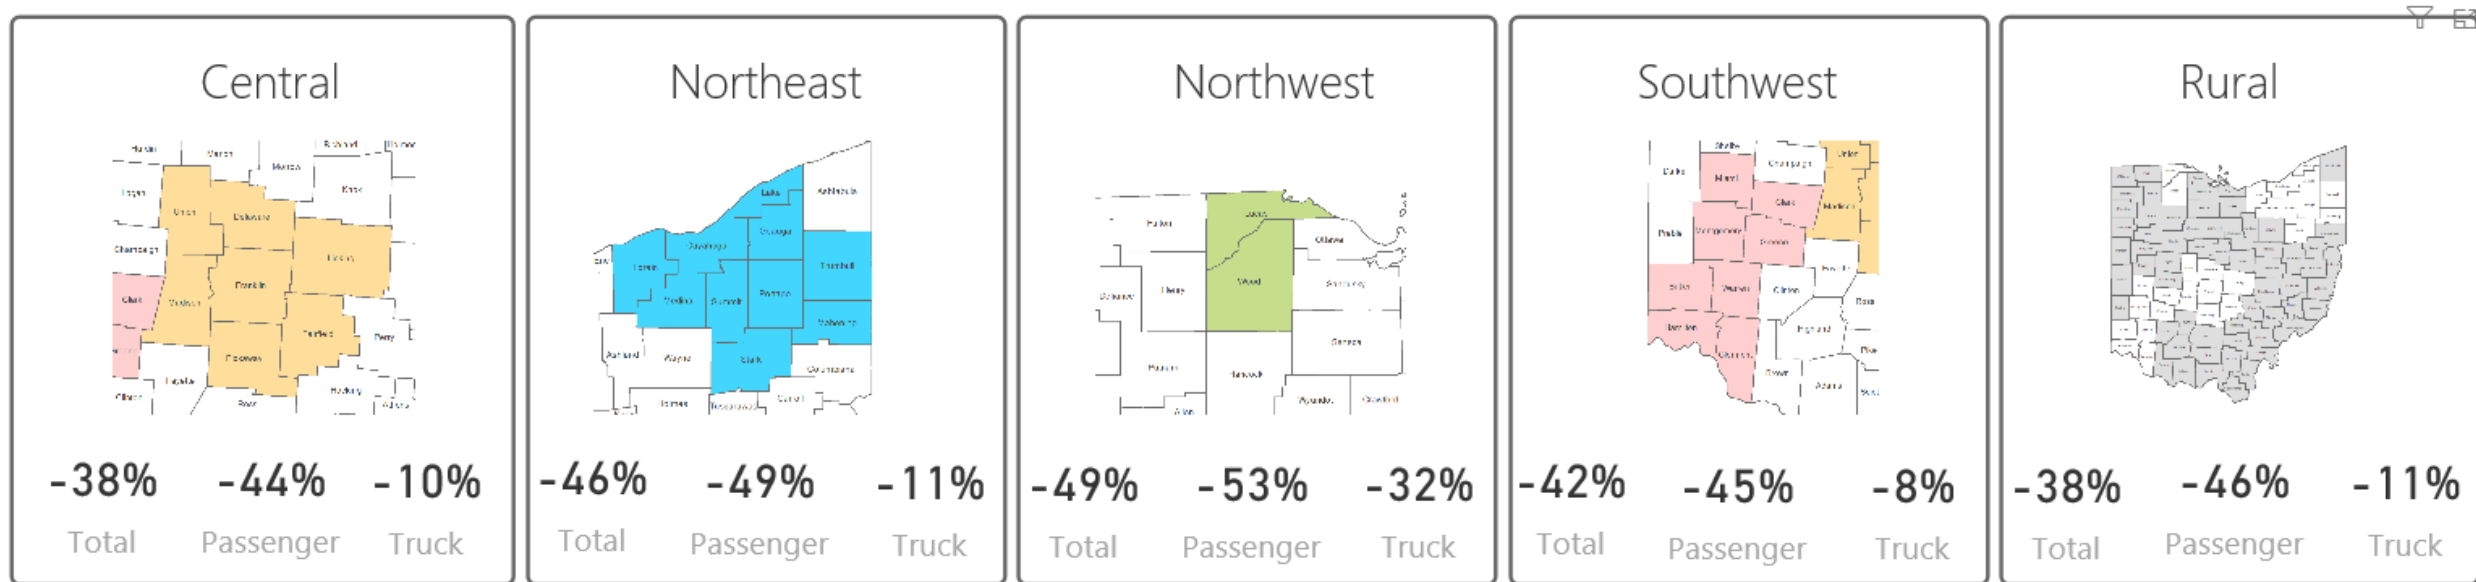

- 2019 = Golden
- 2020 = Start/Stop
- 2021 = back on track

Monday, March 9, 2020 - State of Emergency Declared

Monday, March 30, 2020 - 3 weeks later, State at Home order in full effect

Vehicle Classification Distribution

This shows the distribution of traffic mix - not necessarily the total volume of vehicle changes. Data based on short term class counts collected. 2021 data is counts that had been received and processed by mid-August 2021. Data for 2021 will not be final until all counts have been collected, uploaded and processed.

COVID 19 DATA SNAPSHOTS

Day of Week 2019 vs 2021
June 6 - Aug 30 (Excluding 4th July week)

DAILY TRAFFIC CHANGES IN AUGUST 2019 VS AUGUST 2021

Statewide Traffic Analysis

The analysis in this report is from permanent traffic counters at ODOT and compares average day of the week by month in 2019 to specific days in 2020
